```c
/* Sample program to handle system signals */

#include <signal.h>
#include <stdio.h>
#include <unistd.h>

void * signal_handler(int signumber)
{
   printf("\nTermination Signal Handled!!\n\n");

}

int main()
{
   signal( SIGINT, (void (*)(int))  signal_handler );

   while(1) {
      printf("Doing Nothing...\n");
      sleep(1000);
   }
}
```
